

Bus termination resistor PDP-TRA

- Terminating resistor for PROFIBUS-DP applications
- 5-pin, reverse-keyed, active
- M12 × 1 male connector to 7/8" male connector
- 7/8" male connector to power supply
- Protection class: IP67 (screwed together)
- Temperature: -40 °C...+75 °C
- Note: This is an active terminating resistor. Active terminating resistors are more stable than passive terminating resistors and are likely to improve performance when higher baud rates are used.

Type	PDP-TRA
ID	6825346
Connector A	Male, Straight
Contact carriers	Plastic, PUR, Black
Connector body	Plastic, PUR
Protection class	IP67, (screwed together)
Network protocol	PROFIBUS-DP
Mechanical and chemical properties	
Ambient temperature range (stationary)	-40...+75 °C

Module Status LED

LED indicator	Color	Status	Description
Network status LED	Green	On	Established Connection
		Flashing	Ready for Connection
	Yellow	Flashing	Autobaud/125 k/250 k/500 k
	Red	On	Connection not Possible
